Breakdown Mode

Iyeoka

I've been living on a rebound
Stuck here for too long
You used to take my mind off of
All the ways love can make you go crazyMy emotions taking over
Every time I try to leave
I spin around to find
All the ways you could be better for meIt's like a merry-go-round we go
This love is making trouble with the highs and the lows
I need to take control
Before my heart goes to breakdown modeAll of my vision is spinnin' inside
I can't get off this ride
When will I find closure
If my heart is galloping, galloping for ya
