Hell 2 Pay

The Business

Advisory - the following lyrics contain explicit language:

Some say you cards were marked in advance
Gun in your hand and God on your side
A shot rang out on a London night
In a land where justice is a game
As dawn breaks over London townHell 2 pay
Revenge you find is nowhere to be found
Forget, forgive, I'm gonna take you down
With a friend started as a brother
I ended with no brother
