

Burn It All Down

Oak is Keeping

You always move to fast
take time and slow it all down
connect the dots with glass
and let it all just flow now
burn bridges as you pass
rain down upon us brothers
show no love for your past
confuse your kin for others

You wanna burn it all down?
Sift through the ashes in time to learn
Burn your brides to the ground
Burn baby burn It's a beautiful sound (x2)

You always move to fast
chained hearts are left for others
still smoking from the blast
kiss on the cheek for lovers
Love line of coke is your past
breath it in till you smother
this chapter is the last
all bets are off

You wanna burn it all down?
Sift through the ashes in time to learn
Burn your brides to the ground
Burn baby burn It's a beautiful sound (x2)
