

Congratulations (feat. Bilal)

MAC MILLER

[Intro: Ariana Grande]

Where are you?

Ohhhhh-ohhh (hehehe)

Ohhhhh

The Divine Feminine, an album by Mac Miller

Ohhhhh-ohhh

(The Divine Feminine, hehehe)

(The Divine Feminine, hehehe)

Ohhhhh[Interlude: Mac Miller]

Am I supposed to? Okay

Love

Love, love, love, love, love (sex)

Love, love, love, love, love, love, love (sex)[Verse 1: Mac Miller]

This sun don't shine when I'm alone

I lose my mind and I lose control

I see your eyes look through my soul

Don't be surprised, this all I know

I felt the highs and they felt like you

See a love like mine is too good to be true

And you too divine to just be mine

You remind me of the color blue

Girl I'm so in love with you, yeah

Girl I'm so in love with you

Yeah, yeah

Yeah, yeah, yeah, yeah[Verse 2: Mac Miller]

Well, baby

You were everything I ever wanted

Bought a wedding ring, it's in my pocket

Planned to ask the other day

Knew you'd run away, so I guess I just forgot it

Remember when you went away to college

Hours on the phone, we end up talkin'

Past, present, future, all the gossip, God damn

Puppy love ain't what it was, darlin'

Feelings that we have are so alarmin'

I can make you laugh, I can break the glass

If we made it last, it'd be a bargain

Mr. Charmin', that is my department

You was there before the fancy cars and

You was there when I was just a starvin' artist
When the car was havin' trouble startin'
Now we got our own apartment, same box for the mail
Same hamper for the laundry, the food in the fridge is stale
And this mornin' you cooked the eggs with the kale
I tried to hit it while you was gettin' dressed
You said "All you ever think about is sex"
I'm like, "Oh well, you know me so well
And if this will make you lay, I swear, I won't tell
And every time I call your phone, you better pick up your cell
I swear to God I'ma freak out if it go straight to voice mail"
Well, I'm the jealous type
But I swear that ass what Heaven's like
When I'm in that pussy, it's a better life
That's the only way I'm tryna end the night
That's my only chance, I better get it right[Bridge: Mac Miller]
Take your time my baby
Cause I'm waitin' for you, for you
And I'ma make your mind go crazy
Cause I'm waitin' right here for you, for you[Outro: Bilal]
You get closer with me run away
All I ever know is the color gray
Your loveliness bring me sunshine
I found an angel so divine
Heaven probably not the same without you
But now you're in my world
In my world, ahhhh-ahh
Ahhh-ahhhh, ahhh-ahhh
