Dehumanisation

Subhumans

Dehumanisation
They take away your name
Civilisation
It's the dead man gameAnd we all like living this modern life
Television, radio, disco fights
Get a steady job - you were born to work
Well I can't be bothered, I'm too much of a jerkDehumanisation
As you're living on the dole
Or a working class hero
Because you've got a jobAns we all like working for an upper class runt
If you're feeling downtrodden you can join the Front
National heritage to keep you in line
Abuse your intelligence, mess up your mindDehumanisation
Personality fix
Conformed to the eyeballs
With state politics (state politics)And they tell you you're brilliant to keep you quiet
'Only the idiots know how to riot'
Make sure it's not safe to walk the streets
You wanna stay alive you'd better join the ploiceDehumanisation
We ain't got a name
But we still got emotions
Now the city's in flames
