

# It's O.K.

## BeBe & CeCe Winans

Maybe we can talk it over  
And save our hopes and dreams  
Though the waves seem endless  
Somehow we'll cross this angry sea  
With love all things are possible  
If we just believe

Chorus:

I need to know, yes it's ok  
Can i hurdle this storm, yes but only together  
With love in our hearts, the only way  
Somehow,things will work out just you wait and see  
Oh it will, believe it will

See real life confrontations  
Caused our vows to break  
But i learned the word forgiveness  
Can time chase the pain away  
True love made our hearts inseparable  
If we just believe

Chorus:

I need to know, yes it's okay  
Can i hurdle this storm, yes but only together  
With god in our hearts, the only way  
Somehow,things will work out just you  
Wait and see

But right now it hurts so bad  
And feels so bad  
But tomorrow waits with laughter  
If we endure the tears then joy comes after

Chorus:

I need to know, you need to know,  
It's gonna be okay  
Can i hurdle this storm, only together  
With love in our hearts, the only way  
And somehow, somehow i can feel love again  
Somehow, things have worked out

'cause you stayed with me  
I'm glad to know it's okay, it's okay
