

# Void

## Controller

You can't know your real mind  
As long as you deceive yourself  
Regardless of what we do  
Our hearts know the truth  
This path is difficult  
For those who have lost their way  
Freeing oneself, from words is liberation  
Freeing is liberation  
Don't lose your way  
Fear is a lie  
Emotions lack the truth  
To pave the way to fear  
When we return to the  
root, we gain meaning

When we pursue and lust, we lose all reason

The moment we become enlightened

We go beyond the void

We go beyond.....the void
