

I Love Paris

Alpha Blondy

I love Paris
I love the way the people move yeah
I love Paris
I love the way the children groove
I love Paris
I love the way the people move yeah
I love Paris
I love the way the children groove

You can see black and white
Side by side
Oh what a nice sight...
I feel so right
My spirit's so high
When you get down Pigalle
Girls will drive you wild
And when you walk up to the Champs-Élysées
Let your eyes play, let them play, let them play eh
I love Paris
I love the way the people move yeah
I love Paris
I love the way the children groove
Moving out century to century
When you go to the halles
Teenagers getting high
So you ride back to the Champs-Élysées
Let your eyes play, let them play, let them play eh

I love Paris
I love the way the people move yeah
I love Paris
I love the way the children groove
I love the way the people move yeah
I love the way the children groove yeah
I love the way the children groove yeah
I love the way, I love the way
I love the way the children move eh
