

Daisy Cutter

311

I tried to move with a cool hand, it didn't go as I planned
I'm full of rookie maneuvers and gestures meant to be grand
I've pulled a bag of tricks one after the other
I asked if you heard of my band So misguided, the sincere approach never tried it once
You said to just drop the game flat
Why didn't I think of that? My Daisy, you make me go crazy, forever amaze me
Now let's let the day go lazy
My Daisy, you know what I'm after
Your musical laughter, a more beautiful disaster I can't believe what you create
When you let your heart detonate
You let your mind go with one blast in another
And what comes next I will await Tell me again the one about the time
We first got together and you blew my mind
I find my mind in the gutter
When I think of my Daisy Cutter My Daisy, you make me go crazy, forever amaze me
Now let's let the day go lazy
My Daisy, you know what I'm after
Your musical laughter, a more beautiful disaster It's four months now since you crashed into my life, into my life
You leave a path of delightful destruction
You're quite the throng, my Daisy Just clap your hands, get down to the beat
Just clap your hands, just clap your hands to the beat My Daisy, you make me go crazy, forever amaze me
Now let's let the day go lazy
My Daisy, you know what I'm after
Your musical laughter, a more beautiful disaster My Daisy, you know just what I'm after
You make my heart beat so much faster
My Daisy, you know you drive me crazy
You just blow me away, my Daisy
