

# I Am The Message

## Fightstar

We'll take our virtues up in arms  
To save ourselves  
Tonight I'll fight and friends will stand here  
And die with us Halo, you mean nothing to me  
Angel, you mean nothing to me If I am the message  
Then you are the machine  
If I am the message  
Then you are the machine We'll wear our scars above our arms  
And covered up  
Should we keep this open ending  
Just for us Halo, you mean nothing to me  
Angel, you mean nothing to me If I am the message  
Then you are the machine  
If I am the message  
Then you are the machine Just take a look at yourself  
You see reflections in all of your impurities  
The taste, the taste of a burnt tongue If I am the message  
Then you are the machine  
If I am the message  
Then you are the machine You mean nothing to me  
You mean nothing to me
