

# Bridle On a Bull

[Chris Knight](#)

Dont put a bridle on a bull  
Hell never do what you want him to  
Dont put a bridle on a bull  
Hell just take you for a fool  
And if you take him by his horns  
That bull will run right over you That ol mule dont wanna plow  
Talk to him with a two-by-four  
And if he still dont wanna plow  
Talk to him just a little bit more  
And if he just dont wanna listen  
Haul him off to the dog food store Dont put a bridle on a bull  
Hell never do what you want him to  
Put a bridle on a bull  
Aint no tellin what the bull will do  
And if you take him by his horns  
Hes gonna try to run you through Got a high toned woman  
Keep your one eye on the door  
Got a high toned woman  
Make you wonder what your suitcase is for  
She gonna worry about where you goin  
Then she dont need the house no more Put a bridle on a bull  
Hell never do what you want him to  
Dont put a bridle on a bull  
Hell just take you for a fool  
Put a ring in his nose  
That bulllll follow you Put a ring in his nose  
And that big bad bull will follow you
