

City Pavement

The Subways

When I walk on the city pavement
It's like a trigger going off in my mind
These times are a lonely saviour
That's all I need to find

Sitting on a city pavement
Sitting on a city pavement
Sitting on a city pavement
Sitting on a city pavement

Like colors on a streetlight sidewalk
Dark fight going on in my mind
These times are a lonely saviour
That's all I need to find

Sitting on a pavement
Sitting on a pavement
Sitting on a pavement
Sitting on a city pavement

Sitting on a pavement
Sitting on a pavement
Sitting on a pavement
Sitting on a city pavement

Demo Version

If I walk through the city pavement
It's like a trigger going off in my mind
A little smile is my only saviour
A little kiss and my behind!

We've got our own universe, girl,
I think Rock and Roll is gonna save us!
We've got our own universe, girl,
I think Rock and Roll is gonna save us!

She's sitting on a city pavement
Like she sits in the back of my mind
A little smile is the only saviour

A little kiss is what she came here for

We've got our own universe, girl,
I think Rock and Roll is gonna save us!

We've got our own universe, girl,
I think Rock and Roll is gonna save us!

I think Rock and Roll is gonna save us!
I think Rock and Roll is gonna save us!
I think Rock and Roll is gonna save us!
I think Rock and Roll is gonna save us!
