# **City Pavement**

## **The Subways**

When I walk on the city pavement
It's like a trigger going off in my mind
These times are a lonely saviour
That's all I need to find

Sitting on a city pavement Sitting on a city pavement Sitting on a city pavement Sitting on a city pavement

Like colors on a streetlight sidewalk
Dark fight going on in my mind
These times are a lonely saviour
That's all I need to find

Sitting on a pavement
Sitting on a pavement
Sitting on a pavement
Sitting on a city pavement

Sitting on a pavement
Sitting on a pavement
Sitting on a pavement
Sitting on a city pavement

#### Demo Version

If I walk through the city pavement
It's like a trigger going off in my mind
A little smile is my only saviour
A little kiss and my behind!

We've got our own universe, girl,
I think Rock and Roll is gonna save us!
We've got our own universe, girl,
I think Rock and Roll is gonna save us!

She's sitting on a city pavement Like she sits in the back of my mind A little smile is the only saviour

#### A little kiss is what she came here for

We've got our own universe, girl,
I think Rock and Roll is gonna save us!
We've got our own universe, girl,
I think Rock and Roll is gonna save us!

I think Rock and Roll is gonna save us! I think Rock and Roll is gonna save us! I think Rock and Roll is gonna save us! I think Rock and Roll is gonna save us!
