

# Too Close To Call

Waylon Jennings

Verse 1:

E

I have battled with the demons for my soul

A

Like a soldier unafraid, stood straight and tall

E

With strong convictions fought for what i thought was right and wrong

D A E

But i wonder when it stands in judgement hall

D A E

Will it go down as one too close to call

Verse 2:

E

I have faced that cunning ennemy called time

A

For awhile i held him cold and to a draw

E

As he rode away he said another place and day

D A E

'Cause you can't erase the writing on the wall

D A E

Although this one was just too close to call

Verse 3:

E

As i wrestled with my deepest fear in life

A

I was captured by the shadows on the wall

E

I was brave but just the same, i was glad when morning came

D A E

Because now and then the footsteps in the hall

D A E

Remind me it was just too close to call

Verse 4:

E

I have watched my mind dance too close to the edge

A

As i stood among the crowd to see it fall

E

Sometimes now i cling to what i hope is sanity

D A E

I stagger on this fine like that i walk

D A E

And wonder is it just too close to call
