

Light A Way

He Is We

Down by the lake of Mississippi
A boy was born poor and abandoned
And as he walk you could hear him yearning
 For a home and he prays
And by the fields he sang for rising
 All for his faith and memorizing
 All of the songs his mother learned
 From the lord himself
 Heaven light a way for a fallen
Let me ease the pain from my mother
But he feels the deception in his head
 Another day was born and rising
 And on the stool the boy was trying
To earn a coin for his mother, and hoping

 That freedom will lead her away
Mr. Cadillac Blood: Dear little friend
 I've heard your story
Please take my hand and I'll promise
We'll find a way and we'll be fighting
 For your mother, and her wings
 Heaven light a way for a fallen
Let me ease the pain from my mother
But he feels the deception in his head
 Heaven light a way for another
 Let me ease the pain for a fallen
We are on our way so much stronger
 Heaven light the way for another
And he feels no deception in his head
