

# Caravan Girl

## Goldfrapp

What is her name  
That caravan girl  
What is her name? You were like the sun  
A hazy day  
What is her name? We're just talking  
Like there's something  
Like you know  
Domino, domino Wanna run away, oh, run away you and me  
Yeah, get away and bring it all back  
Wanna run away, oh, run away you and me  
Yeah, get away and bring it all back Barefoot and game  
That stranger on the hill  
What is her name? You were like the sun  
A lazy day  
Have you no name? Don't stop talking  
There's just something  
Like you know  
Id like to know Should I stay or should I go?  
It's a long, wrong way to go  
But I won't deny  
Yeah, I won't be shy Wanna run away, oh, run away you and me  
Yeah, get away and bring it all back  
Wanna run away, oh, run away you and me  
Yeah, get away and bring it all back Wanna run away  
Wanna run away and bring it all back  
Wanna run away  
Wanna run away and bring it all back Wanna run away  
Wanna run away and bring it all back  
Wanna run away  
Wanna run away and bring it all back Run away, run away  
Run away, run away  
Run away, run away  
Run away
