Fuel

Pulley

It's dark I see through the smoke we breathe
It's loud I can't hear the songs we play
Play fast everything keeps going slow
Taken down to size I'm feeling
Feel the scars beneath my clothes
Covers what I want to show
Open mind my heart is open too
Take back everything you once said
No more we're not going anywhere
Forget don't remember anything
Taken down to size I'm feeling
So hard why's it hard to see
Realize how it's going to be
Holy wars
Alienate
