

# The Stalker

## Urge Overkill

Thought you wanted, thought you wanted  
I thought you wanted to save me  
Now, you got it, what you wanted  
Now, you're driving me crazy You don't know me, never met me  
But I know that you'll like me  
Now, I'm comin', now I'm comin'  
I hope that you like me Gonna come undone  
(Got your address)  
Got to keep me from  
(Where you live) Like a lost street bum  
(Got your number)  
They call me, they call me stalker Thought you wanted what you wanted  
I thought you wanted to save me  
What you wanted, now you got it  
Now, you drive me insane, yeah You don't know me, never met me  
But I know that you'll like me  
Now, I'm coming to your party  
But you didn't invite me Gonna come undone  
(Got your address)  
Off the T.V. from  
(Where you live) Like a lost street bum  
(Got your number)  
They call me, they call me stalker
