Computer Show

Adam Green

Oh, I stumbled in all wide eyed
To the computer show
I didn't have a passport
So they turned me into snow
They turned me into snowFollow you, follow you
Follow you, follow you
Into every storeFollow you, follow you
Follow you, follow you
Tell me what I'm for
Tell me what I'm forI stumbled in all wide eyed
To the computer show
I didn't have my passport
So they turned me into snow
They turned me into snowFollow you, follow you
Follow you, follow you
Into every storeFollow you, follow you
Follow you, follow you
Tell me what I'm forYou caught my eye against your eye
Deep inside the crowd
You hung me from the hooks inside
My asshole in my mouth
My asshole in my mouthFollow you, follow you
Follow you, follow you
Into every storeFollow you, follow you
Follow you, follow you
Tell me what I'm for
Tell me what I'm forStumbled in all wide eyed
To the computer show
I didn't have my passport
So they turned me into snow, no
They turned me into snow, no
They turned me into snow, noTake me home with you
Take me home with you, yesYou needed to read the computer magazines
To know that you like computers, yes
To go to the computer show, yes
To see me standing there, yesTo take me home with you
I need to go home with you
I can't go home without going home with you
