## Go To Hell

## **Nina Simone**

Your mind lies in the Devil's workshop Evil doing your thrill The trouble and mischief is all you live for You know darn well That you'll go to hell You'll go to hell So, you're living high and mighty Rich off the fat of the land Just don't dispose of your natural soul 'Cos you know darn well That you'll go to hell That you'll go to hell I say hell Where your natural soul burns Hell Where you pay for your sins Hell Keep your children from wrong doing

That they'll go to hell
They'll go to hell
I say hell
Man, woman created
Hell
To live for eternity
Hell

'Cos you know darn well

With an apple they ate from the tree of hate
So, you know darn well
That they went to hell
They went to hell
Now, Satan was an Angel in heaven
But he stirred up trouble and woe
So, the Lord commanded that the devil be branded
So you know darn well
He went to hell
Yeah, he went to hell

He went to hell
