

# Bittersweet Company

[Kip Moore](#)

We were summer love was burning  
We were white magnolias in bloom  
By the time the leaves had fallen, I had already fallen for you  
Then winter came, brought the rain, something in between us changed  
Now we can't get it back Oh, but I remember when we  
Loved each other so fearlessly  
So tell me how the hell did we  
Turn into bittersweet company?  
Our chemistry, the jealousy, a symphony of things gone wrong  
There's something here behind the tears for all the years that we've held on  
It'd be easier to let you go, let this thing go up in smoke  
Leave and let it turn to ash Oh, but I remember when we  
Loved each other so fearlessly  
So tell me how the hell did we  
Turn into bittersweet company? Oh, I remember when we  
Loved each other so damn fearlessly  
So tell me how the hell did we  
Turn into bittersweet company?  
Oh, I remember when we  
Yeah, loved each other so damn fearlessly  
So tell me how the hell did we  
Turn into bittersweet company?
