

No Gravity

Natasha Thomas

La la

I ride through the galaxies, crossing infinity

Heaven is coming down, I'm guided by satellites,

I see the flashing lights. Its just a deafening sound.

Theres nothing but silence and nothing that makes sense, here without you,

I have to confess this you make me weightless, you are my ray of light, like im in space without a shuttle,

Im walking on thin air in a bubble,

Gotta get past the final level,

Cause im floating around and I cant feel the ground.

La la la la la la la la la la la la la la

No Gravity

la la la la la la la la la la la la la la

No Gravity

I'm lost on the milky way, you're light years away from me, I wish on a shooting star,

I try to breath again, I cant get no oxygen, I dont think I get to far.

Theres nothing but silence and nothing that makes sense,

Here without you, I have to confess this you make me weightless, you are my ray of light,

Like im in space without a shuttle,

Im walking on thin air in a bubble,

Gotta get past the final level,

Cause im floating around and I cant feel the ground.

La la la la la la la la la la la la la la

No Gravity

la la la la la la la la la la la la la la

No Gravity

Ive been hit by a meteor, or at least thats how it hurts

La la la la la la la la la la la la la la

No Gravity

la la la la la la la la la la la la la la

Like im in space without a shuttle,

Im walking on thin air in a bubble,

Gotta get past the final level,

Cause im floating around and I cant feel the ground.

La la

No Gravity

Cause I'm floating around and I can't feel the ground

La la

No Gravity
