

# All I Need

## Siaosi

(feat. Jah Maoli)

I tell ya she's pristine, something like a queen  
More of a lady than her majesty, yeah  
All that I want better believe  
She's all the woman that I'll ever need  
(all the woman that I'll ever need)  
She's all the woman that I'll ever need  
(She's all the woman that I'll ever need)  
She's all the woman that I'll ever need

Everything about you drives me crazy  
Like when you speak, it sounds so amazing  
All the little things that you do  
Reminds me of how much I love you, ooh

I'm so damn proud that you're my baby  
The thing we have no such thing as maybe  
Could it even be possible  
You're the most wonderful creation that GOD made

I tell ya she's pristine, something like a queen  
More of a lady than her majesty, yeah  
All that I want better believe  
She's all the woman that I'll ever need  
(all the woman that I'll ever need)  
She's all the woman that I'll ever need  
(She's all the woman that I'll ever need)  
She's all the woman that I'll ever need

Look up the definition of a real woman  
You'll find a picture of your face no doubt  
Never thought fairy tales came true  
Until the day that I met you

I swear you're the best thing to happen  
In my life, would you be mine  
Would you be mine

?Dis are di part when mi get down on one knee

And ask di question will you marry me  
It's a love lyrication  
Mi no hesitate cos me want you in mi life, to be my wife yeah

Promise to give you a love so true  
Make everyday feel like a honeymoon  
Love everlasting girl mi for real  
And mi want show you how I really feel

I tell ya she's pristine, something like a queen  
More of a lady than her majesty, yeah  
All that I want better believe  
She's all the woman that I'll ever need  
(all the woman that I'll ever need)  
She's all the woman that I'll ever need  
(She's all the woman that I'll ever need)  
She's all the woman that I'll ever need

You're all the woman  
You're all the woman  
You're all the woman that I'll ever need

You're all the woman  
You're all the woman  
You're all the woman that I'll ever need

You're all the woman  
You're all the woman  
You're all the woman that I'll ever need
