Goodbye Friend

Cashier No.9

He told everybody goodbye
He had a look in his eye
Like this could be the last time
I knew you were feelin down
I wish that I had been around more
Could I have changed things?
Maybe I could have changed things
And it's the rainy days that mostly remind me
Goodbye friend
I hope you found
The answers you were lookin' for
Goodbye friend
I don't think you ever knew
That there was someone here
That there is someone here
Who misses you
You were my biggest fan
Together forever and end
So many things I should've known
You were always there to help me along
And always there to sing my song
I wish had told you
Man, I sure hope i told you
And it's the rainy days that still remind me
Ya, it's the crazy, crazy days I need you here
Goodbye friend
I hope you found
The answers you were lookin' for
Goodbye friend
I don't think you ever knew
That there was someone here

That there is someone here
Selfishly
I'm mad at you
For making me feel like this
I wish I could talk to you
Like I used to
And tell you that sometimes i hate you for doing

This to the people
That love you so
They look at me
Like I'm supposed to know
And now im tired
So thank you for saying goodbye
And letting me know we're alright
I hope that I deserved that
Goodbye friend
I hope you found
Whatever you were lookin' for
Goodbye friend
I don't think you ever knew
Goodbye friend
I hope you found
The answers you were lookin' for
Goodbye friend
I dont think you ever knew
That there was someone here
That there is someone here
Who misses you
Oh, I miss you
God, I miss you
I miss you
