

Human Touch

[Kem](#)

Verse 1

Every finger was made
For your delight
To follow the curve of your face
Here next to mine
All of your secrets are safe with me
Can I taste your perfume
I could just linger for days and melt with you

(Chorus)

We can't lose with love on our side
And could use your affection tonight
Love was made just for us
Human Touch

Verse 2

Watching the wind blow your hair
Don't you wanna spoon
In a garden of pillows we can share
Take off your shoes
Girl you're my favorite time of the year
Can I kiss your toes
Until this fever disappears
Girl you run the show

(Chorus)

Oh just stay here with me
your love is all that I need

I just want it so much

Human Touch

Repeat chorus

(ADLIB OUT)
