SHITLIST

Swine

Pure manifestation of evil
It's black and it's dismal
You'd never know until it's upon you
You're on a bender
I'm desconstructing the diseaseYou've burned the bridges
You've sowed the lies
You've burned the bridge
You're on the shitlistYou've burned the bridges
You've sowed the lies
You've burned the bridge
You're on the shitlistHate holds me together
Your skin's not worth the saving
Just keep my name outta your mouth
On your fuckin' benders
I'm desconstructing the diseaseYou've burned the bridges
You've sowed the lies
You've burned the bridge
You're on the shitlistYou've burned the bridges
You've sowed the lies
You've burned the bridge
You're on the hit listThe tables have turned
I've opened my eyes
Look at all you've burned
You're on the shitlistFear will do what must be done
Death will reign from aboveYou've burned the bridges
You've sowed the lies
You've burned the bridge
You're on the hit listThe tables have turned
I've opened my eyes
Look at all you've burned
You're on the shitlist
You're on the shitlistYou know who you are
You're on the hit list
