

# Unit 731

## Atomizer

Let the nightmares begin  
Genocide and the Unit 731  
Bio warfare and the Unit 731  
With liquid sprays  
And syrums in your veins  
And flea bomb raids  
And genetic plagues  
Through poisoned air  
A virus to be aware  
Plague and tetanus  
And tuberculosis  
A human test subject  
Is what we'll use  
For the 731 There's many to choose  
In Shinjuku  
That's where your body was found  
Not buried deep  
Or far underground  
Near Ishil's labs  
No not far away  
Families grieved  
But it was swept away  
Yes human test subjects  
Are what we'll use  
For the 731  
There's many to choose  
To probe and abuse  
Infect and infuse
