See All You Were

Danzig

Know you have a problem
Can't you figure it
Suddenly you're lost alone
As your statue splits
Now you walk this cruel world
Lost among it's pain
See all you were in my world
Never to regain
So you misbegotten
Love so quickly fades
So to be forgotten
Turned a grayer shade
See all you were in my world
See all you were in mine
Now you know possession
Million souls to steal
Everynight your death awaits
Less and less to feel
