## Tory Lanez

[Verse 1:]

I tell Hispanic bitches dimelo  
She said it's for her and not for me to know  
She always wanna know why I don't let her to roll  
So shit, say it's for you just for me to know  
I say the faces in my Rolley never tick tock  
Stacking paper 'til it's at the tip top  
I know why they mad, cause my shit pop  
Driving to success so fuck a pit stop  
That's why I did it all for some Adidas  
I'm the one that said fuck any non-believers  
Homeboy, I know you love to think you fucking with me  
Just keep it real my G, who really run the city  
Fargo got 'em bunch of bitches in the Caravan  
Step off in your bitches like a pair of Vans  
Damn this white bitch with me look like ?  
My life is like a movie that they'll never ?  
And it's all in one night, since everyone's around  
We brought everyone up out of their home for a night  
So lets get right[Hook:]  
I got Hispanic bitches yelling dimelo  
I'm the one that's living shit vida lo-ca  
Toasting to my niggas cause we finally made it  
Crazy, we did everything we dreamed of  
I know I deserve it, I know I deserve it  
Put your hands up if you deserve it  
I know I deserve it, I know I deserve it  
Put your hands up if you deserve it[Verse 2:]  
Tell them niggas to drop a hole in a ziplock  
Tell the competition, wait  
I forgot, no competition I got shit lock  
I got big plans for some big guap  
Girl them niggas sayin I'll be rich  
I been plotting on that shit since '96  
If I go reaching for a fail, I'll probably miss  
The realest song of the year is probably this  
I see these niggas talk so down about a nigga man  
But you know that I'm rich and I don't give a damn  
Ride around the town in that neverland

And she say she don't want this shit to ever end  
And it's all in one night, since everyone's around  
We brought everyone up out of their home for a night  
So lets get right[Hook:]  
I got Hispanic bitches yelling dimelo  
I'm the one that's living shit vida lo-ca  
Toasting to my niggas cause we finally made it  
Crazy, we did everything we dreamed of  
I know I deserve it, I know I deserve it  
Put your hands up if you deserve it  
I know I deserve it, I know I deserve it  
Put your hands up if you deserve it
