# The Getaway Plan

## Europe

Hey, I'm the voice in your head
A friend that you once left for dead
I've been busy, did you miss me?
No, you're not paranoid, I'm back to fill the void
I think you understand, I'm the getaway plan
The getaway plan
I'm the shiver that runs up your spine
A strange kinda piece of your mind

You've been lonely, I'm the only
I know your damaged goods
You did the best you could
I think you understand, I'm the getaway plan
The getaway plan, the getaway plan
Can you feel me? Can you reach me?
I've lived a thousand lives, feels like I've just arrived
I think you understand, I'm the getaway plan
The getaway plan, the getaway plan
