

# A Needle In Your Eye #16

## The War on Drugs

As I crawl through your garden  
You stand and laugh  
You stand and laugh  
I tried to beg for your pardon  
You stand and laugh  
You stand and laugh  
It's a long way coming down  
The ladders in your eye  
For a Wednesday in your garden  
I think that I would die  
I tried to stand in your garden  
But you're too tall  
You're much too tall  
You win the hand, I throw my cards in  
You watched me fall  
You watched me fall  
It's a long way coming down  
The ladders in your eye  
For a Wednesday in your garden  
I think that I would die  
I tried to fly in your garden  
But you shot me down  
Mama you shot me down on the ground  
I watched the sky above me harden  
And your black gown your long back funeral gown  
It's a long way coming down  
The ladders in your eye  
For a wednesday in your garden  
I think that I would die
