Believe In Yourself

[Steve Wynn](#)

History's been decided by the bullies and the freaks
Who tried to move the mountains and drain all the creeks
Wiping out the things that just didn't fit
I wonder what they ended up doing with itI've always been content to take the pieces
That I've been given
Make a mess with the results
Justify it allEverybody's using all their breath telling everyone else
What to do with their own breath
I can't believe it, I never was the type
To worry that much about everybody elseIt's okay if you fall
You stumble, you get up
That's all
Believe in yourself for a while
