

This Is

Bent Not Broken

This is
more than I ever wanted
this is one
hell of a ride
this is
all that Im asking for is
this bliss to stay by my side This is
a pretty fragile feeling
is this
what I deserve
this kiss
came out of nowhere fast
yes this kiss is full of verve Looks like weve found a way
little by little
step by step day
after day
if there is one big moment
one chance to come,
then this looks like this is the one
I know its time to go for gold
when someone comes whos worth to hold I know
that I will never know
but I know
time will show
if this time
will stand the test of time
and this time
you could be mine Looks like weve found a way
little by little
step by step
day after day
if there is one big moment
one chance to come
then this looks like this is the one
I know its time to go for gold
when someone comes whos worth to hold Looks like weve found a way
little by little
step by step
day after day

if there is one big moment
one chance to come
then this looks like this is the one
I know its time to go for gold
when someone comes whos worth to holdAha aha aha
this is what it is and its this bliss
aha aha aha
that kind of a start start that Ive missed
aha aha aha
aha aha aha
this is.
