

Meet Me in the Tower

Ours

Advisory - the following lyrics contain explicit language:

I'm paralyzed from head down
Unrealized pushing their doubt
I'm burned by all the fire that's spread within my house
You put them there so you can put them out When courage strikes we'll come out
And wait around with our heads down
Turn me to the sky, turn me upside down
A way to feel alive, a life that's mine 'Cause I am like a big strong cable
I am like a girl, soft inside
Finally today I'm able
To put you in the ground
I'll meet you in the ground The mirror fell and I
I may as well have been blind
The days passing like cars, I'll meet you in the tower
If they can dream then why, oh, why can't I? 'Cause I am like a big strong cable
I am like a girl, soft inside
Finally today I'm able
To put you in the ground I've finally stabilized
I've finally stabilized
Everyone will see
Everyone will see I am like a big strong cable
I am like a girl, soft inside
And finally today I'm able
To put you in the ground I am like a big strong cable
I am like a girl, soft inside
Finally today I'm able
To put you in the ground
