Rey Pila

Us got to find the key, they're here for me
We better start the car
The plane, since where I've been
This brand new scene, old fashion superstars I'm sorry, please calm down
The rules have changed
Don't panic, we'll grow old
It won't be a shame The sound that faint the tears
Are broken down, I know I have to try
I'm on the other side, to run to hide
I guess that I'm steel shined
I'm sorry, please calm down
The rules have changed
Don't panic, we'll grow old
It won't be a shame Just dancing into the death of night
Dancing until you start a fight
Dancing until the death of night
Dancing until you start a fight
Dancing...
Dancing...
Just dancing into the death of night
Dancing until you start a fight
Dancing until the death of night
Dancing until you start a fight
Dancing...
Dancing...
Dancing...
Dancing...
