

Insanity

Lyria

Dark and gloomy night
The wind blows again
Whispers, I can hear them
The moon hides its face
And I try to escapeParanoia is haunting me
I know someone is chasing me
Making me mad
His face is covered
But I can hear his footstepsInsanity
I want you away from me
Leave me!
Let me free
I want peace of mind
But you watch me every time
I swear I try to do everything right
Just set me freeDarkness is deep
And I can hear the whispers in my ear
I walk faster but I'm still hearing someone running behind me
I cannot see his face
And dust clouds my sightInsanity
I want you away from me
Leave me!
Let me free
I want peace of mind
But you watch me every time
I swear I try to do everything right
Just set me free
The rain falls
And washes my tears away
But the night is cold and blind
And there's nothing in my life
Just this intense fearInsanity
You are chasing me
Leave me
Why don't you let me live?
I want to believe that I'll find a way
Without someone mocking me
Just set me free
