Goodbye (Acoustic Mixtape)

Sam Hunt

Never seen such a beautiful straight face
I never questioned anything
You sealed my lips and you stole my shirt
Tattooed my heart but mark my words
What do you call the other half of half the truth?
What I didnâ€™t know never hurt you
You shouldâ€™ve paid up front when you sold me out
I lost so much sleep but itâ€™s over now

Our love is lying there
Lying by your side
Murdered by the lies you told now youâ€™re the one who cries
And your tears rain down
Rain down your face
And falling on the pillows in the bed you made

You left me nothing now itâ€™s all Iâ€™ve got, for you
Goodbye, goodbye, goodbye

You kissed my mouth in brand new places
Filled your camera with our faces
Wrote love letters underneath my name
Crawled in my arms everytime it rained
But all those memories Iâ€™m burning â€˜em baby
Canâ€™t you see this ainâ€™t no maybe
You went and threw them all away somehow
What felt right then I canâ€™t feel right now

Our love is lying there
Lying by your side
Murdered by the lies you told now youâ€™re the one who cries
And your tears rain down
Rain down your face
And falling on the pillows in the bed you made

You left me nothing now itâ€™s all Iâ€™ve got, for you
Goodbye, goodbye, goodbye

Oh, you left me nothing now itâ€™s all Iâ€™ve got
You left me nothing now itâ€™s all Iâ€™ve got

Goodbye
