

Ozium (Demo Version)

Monster Magnet

I'm up to my brain in the mire of an ancient swamp
Pteranodon smiles at me and flies up to God
Baby let me drink deep from your globes of reality
Writhe your naked ass to the mindless groove Baby give your tongue a taste and follow me up to my room
The Bull God has your head and baby that's just fine
Now it is time, we became the mighty cell
Wrap those hungry jacks to the mindless groove They say, we've got a lifetime but we know that ain't true
I will not be denied, I will not be denied Baby, the faster you gyrate, the faster we'll be there
Arms up overhead
A Goddess in the ancient song
Work that mighty world to the mindless groove They say, we've got a lifetime but we know that ain't true
I will not be denied, I will not be denied They say, we've got a lifetime but we know that ain't true
I will not be denied, I will not be denied
