

Lightning Strikes

Yes

What you gonna do when the lightning strikes and hits you?

Who ya gonna call for the secret of stealing the world?

Swimming in this ocean of words on your new cellphone

Diving for the wisdom of pearls in your eyes, come on

What ya gonna do when the lightning strikes and hits you?

How ya gonna laugh when the joker forgets his lines?

Stepping off a cloud into space whatever greets you

Show me how you got this award for being alive

Waking up is waking to the power

Dancing up is dancing till the dawn

Talk, talk, talk will always get you someplace

Shake it up 'n' shake me till I'm done, shake it up now

She ay, do wa bap

She ay, do wa bap

She ay, do wa bap

She ay, do wa bap

Who ya gonna call when the power begins to chase you?

Spinning out of shape now you're learning to live again

Fastening your seatbelt tonight it could get jumpy

Showing me the good 'n' that, life is not in vain

Take, take, take 'n' take me through the lightning

Walk don't talk me always on the run

Ride it out until you get the picture

Shake it up and let me get me some, let me get me some

Eya he say touch it together

Touching my spirit, touching my feeling

Eya he say touch it together

Touching my spirit, touching my feeling

Eya he say coming together

Touching my spirit, touching my feeling

Eya he say coming together

Touching my spirit, touching my feeling

Talk, talk, talk, keep moving 'round in circles

Moving till the moon is on the run

Take me, take me, take me to the new day

Take me out and let me get me some

Take, take, take and dance me through the lightning

Moving to the left 'n' to the sun, ya, ya, ya

Help me get me some, ya
Help me get me some, come on
Ooh ya, ooh ya, ooh ya, ooh ya
Ooh ya, ooh ya, ooh ya
