This Is All I Really Know

Patrice Rushen

Once I was lost, scared and confused.... fear in my heart, doubt in my mind.
Something happened that changed my life... a better way... all things come in time.
Chorus: I will go, cause I know, He's my light, he's my sight... this is all I really know... something just won't let me go astray.
Slowly I opened the door to my life, something inside told me not to hide.
All that you'll need; you'll surely receive. Wait patiently, what's yours, will surely be.
Repeat Chorus (2 times)
Refrain: Now, I've got peace of mind so now.... people get behind me now.. I've got love... (?) ... that my light can finally shine.
Repeat Chorus to end
