

# Superfriend

## Audio Adrenaline

You're like a lonely statue  
The wind and rain comes at you  
You'll stand and take your chances  
Against the world's advances  
You rely on a flimsy virtue  
No man can stand alone Does it offend you  
That I got a Friend who  
Knows what you've been through  
And says that He loves you? I wanna sing His name  
Of how He became  
Jesus, the Friend of mine How long will you be posin'?  
How long can you stay frozen?  
You'll crumble from the inside  
Your pride will be your demise  
Won't you let someone help you?  
Everybody needs a friend Does it offend you  
That I got a Friend who  
Knows what you've been through  
And says that He loves you? I wanna sing His name  
Of how He became  
Jesus, the Friend of mine Does it offend you  
That I got a Friend who  
Knows what you've been through  
And says that He loves you? I wanna sing His name  
Of how He became  
I wanna sing His name  
Of how He became I wanna, I wanna sing  
I wanna, I wanna  
I wanna, I wanna sing  
Jesus, the Friend of mine
