

This Is My Heart

P.J. Pacifico

This Is My Heart
(Keith Karlson/P.J. Pacifico)
Gooseisloose Music BMI
Paul P Music ASCAP
Coming hot out of the gate
And finishing up cold
Something more to complicate
It starts to get old
Just like always staying downtown
When the night comes undone
I always had to stick around
Looking for everyone
I'm giving up on letting down
And taking all the blame
Somewhere in the lost and found
Something changed
This is my heart
Another sign I didn't see
Or get to control
Was me not being me
And overstepping the role
I swung for the upper deck
With my eyes closed
Happily I heard it connect
But damned if I know
I have lived the end, now I'm at the start
This is my heart
