

# Let It Go

Donavon Frankenreiter

Do you ever wake up and wonder how your world could change  
'Cause feels so strange  
Yeah you feel so strange  
Do you ever feel like everything you're doing never gets done  
Like you're on the run  
Like you're on the run

Don't it feel so good to let it go  
Forget about everything you know

Do you ever feel like all you do is try and try  
But you never get by  
I said you never get by  
Do ever feel like what you're doing ain't what you want  
It's just what you've been taught  
Just what you've been taught

It's gonna feel so good to let it go  
Forget about everything you know  
Grab a friend let's come togheter  
Times like these should last forever

Laught at me  
And I'll laugh too  
Cry At Me  
And I'll cry with you  
Laught at me  
And I'll laugh too  
Cry At Me  
And I'll cry with you  
Just to help you through

'Cause it feels so good to let it go  
Forget about everything you know  
Grab a friend let's come togheter  
Times like these should last forever

Feels so good to let it go  
Forget about everything you know  
Grab a friend let's come togheter

Times like these should last forever
