# Love Is All There Is

## Rpt

Everyone is talking about me
How my heart is broken that they don't see
When you're lonely inside the world looks so carefree
When you're lonely inside you just can't see
Does anybody want you? Does anybody need you?
The question is
Does anybody want you? Does anybody need you?
The question is
All I really know for certain, babe
Is love is all there is, is all there is
Every now and then there comes a time
Someone comes along to change your mind
You believe it's unwise to give into careless dreams
You believe it's surprise, you never wait
Does anybody want you? Does anybody need you?
The question is
Does anybody want you? Does anybody need you?
The question is

Well, all I really know for certain, babe
Is love is all there is, is all there is
Love is all there is
You believe it's unwise to give into careless dreams
If you don't see that is why you never love
Does anybody want you? Does anybody need you?
The question is
Does anybody want you? Does anybody need you?
The question is
Oh, does anybody want you? Does anybody need you?
The question is
Does anybody want you? Does anybody need you?
The question is
Well, all I really know for certain, babe
Is love is all there is
