Damage

Red

(Hear me)
Now the damage is done
I can?t escape, can?t run
Can?t undo what I?ve done
(I am waiting)
Do you hear me now
Will you answer me
Are you even there
(Don?t look away)
All I do is damage, damage
It?s destroying me
All I do is damage, damage
I?m sick of misery
(Hear me)
I?m human debris
I am crashed and bent
I?m a catastrophe
(I am waiting)
I?m human debris
I am crashed and bent
I?m a catastrophe
All I do is damage, damage
It?s destroying me
All I do is damage, damage

I?m sick of misery
Take this away
It was just a mistake
Save me
All I do is damage
I am covered in shame
There is no one to blame
I am covered in shame
I have no one to blame
I am covered in shame
I have no one to blame
Shame! I am covered, I am covered
Shame! I am covered
Take this away

It was just a mistake
Save me (I?m a catastrophe)
All I do is damage
All I do is damage, damage
It?s destroying me
All I do is damage, damage
I?m sick of misery
Damage, damage (Are you even there?)
It?s destroying me
All I do is damage, damage (Will you answer me?)
I?m sick of the misery
