

# Damage

## Red

(Hear me)  
Now the damage is done  
I can?t escape, can?t run  
Can?t undo what I?ve done  
(I am waiting)

Do you hear me now  
Will you answer me  
Are you even there  
(Don?t look away)

All I do is damage, damage  
It?s destroying me  
All I do is damage, damage  
I?m sick of misery  
(Hear me)

I?m human debris  
I am crashed and bent  
I?m a catastrophe  
(I am waiting)  
I?m human debris  
I am crashed and bent  
I?m a catastrophe

All I do is damage, damage  
It?s destroying me  
All I do is damage, damage

I?m sick of misery  
Take this away  
It was just a mistake  
Save me  
All I do is damage  
I am covered in shame  
There is no one to blame  
I am covered in shame  
I have no one to blame  
I am covered in shame  
I have no one to blame  
Shame! I am covered, I am covered  
Shame! I am covered  
Take this away

It was just a mistake  
Save me ( I'm a catastrophe)  
All I do is damage  
All I do is damage, damage  
It's destroying me  
All I do is damage, damage  
I'm sick of misery  
Damage, damage (Are you even there?)  
It's destroying me  
All I do is damage, damage (Will you answer me?)  
I'm sick of the misery
