

Eternally Yours

Tim Ellis

I gotta tell you
I think it's time that we got it straight now
Since I had your love
I don't crave for no other Baby I feel such emotion
I can't keep it to myself no more now
You can lock my heart
Like nobody else can baby Once in a lifetime
You might find heaven on earth and
I promise you paradise
()
Forever whatever
They may decide
Forever whatever
I'll stand by your side
For worse and for better
I'll be the one (be the one)
Who is always there and
We'll be together
Forever whatever may come I gotta mention
I think it's time that you understand now
I live for your touch
And your loving completes me baby I feel so much passion
I think of you every night and day now
You're where I belong
Yea, i'm yours for all time baby
Once in a lifetime
You might find heaven on earth and
I promise you paradise ()
Forever whatever
They may decide
Forever whatever (whatever)
I'll stand by your side (By your side)
For worse and for better
I'll be the one (be the one)
Who is always there and
We'll be together
Forever whatever may come (Be together yea) Forever I am never gonna let you go
Forever I am never gonna lose you baby
Forever I am never gonna break your heart

Forever I am always gonna love you baby
Once in a lifetime
You might find heaven on earth and
I promise you paradise
Forever whatever
They may decide
Forever whatever
I'll stand by your side
For worse and for better
I'll be the one (be the one)
Who is always there and
We'll be together
Forever whatever may come
Forever whatever they may decide (Forever Forever may decide)
Forever whatever I'll stand by your side (Forever stand by your side)
For worse and for better, I'll be the one (Forever I'll be the one)
Who is always there and we'll be together (Who is always be there together)
Forever whatever may come (Forever whatever may come)
