Killing Me Sweetly

Scott Weiland

A wonderful find unlike no one before her
The world bowed before her, do you know what I mean?
I think I fell from the sky when she told me she needs me
We were so happy like a couple on the silver screenPlease don't change, I'll never be the sameNow go to sleep gently, you're killing me sweetly
'Cause I can't find a way to make you believe
Now go to sleep gently, it's killing me sweetly
'Cause you can't find a way to make me believeTook a trip out of town we went south of the border
Somebody told us where we could run away
One morning you wake up and no one's beside you
No one to guide you, do you know what I mean?Vicious games will lead to bitter painNow go to sleep gently, you're killing me sweetly
'Cause I can't find a way to make you believe
Now go to sleep gently, it's killing me sweetly
'Cause you can't find a way to make me believeYou are the apple of my life
You are the sun that gave me lifeNow go to sleep gently, you're killing me sweetly
'Cause I can't find a way to make you believe
Now go to sleep gently, it's killing me sweetly
'Cause you can't find a way to make me believe
