

Midnight Cruiser

We Are Monroe

Verse:

Oh I've seized control of the road
that I cleared along the way
and paved it in heartache
As I watch myself fall short
of every story that you've told
taking on the weather can take it's toll
And I lose myself to the ride
As I drive out through the night
avoiding every sign
as I watch myself lose hope
in every fortune you foretold

Taking on the peril to lose it all
Chorus:

Cause when your world comes crashing down around me
you know I'm gonna save you
you know I'm gonna save you
you know I'm gonna lift you off your back
and when it all comes crashing down around me
you know I'm gonna save you
you know I'm gonna save you

you know I'm gonna lift you off your back
Bridge:

I've been riding my heart out without you
I've been carrying the weight of it all
I've been losing my mind here without you surviving all alone

When all is lost it's hard to let you go
Chorus:

Cause when your world comes crashing down around me
you know I'm gonna save you
you know I'm gonna save you
you know I'm gonna lift you off your back
and when it all comes crashing down around me
you know I'm gonna save you
you know I'm gonna save you

you know I'm gonna lift you off your back
you know I'm gonna save you, you know I'm gonna lift you off your
back

you know I'm gonna save you, you know I'm gonna lift you off your back
