

2012 - The Demise Of The 5th Sun

Scar Symmetry

Pinnacle of evolution, the end of linear time
Progress or termination, cosmic ray mutation
It's the question that burns inside
Will we perish or rise with the tide
When the waters of consequence
Comes rushing forth
For the lines on the fractal wave
Fits the course of history
They're created to work as one
'Til the end
A dimensional shift
Leap in consciousness
Or a dire destiny
Asteroid fatality
It's the question that burns inside
Will we perish or rise with the tide
When the waters of consequence
Comes rushing forth
For the lines on the fractal wave
Fits the course of history
They're created to work as one 'til the end
At a time when terrestrial
And galactic grids align
The demise in 2012 realized
Pinnacle of evolution, the end of linear time
Progress or termination, cosmic ray mutation
A dimensional shift, leap in consciousness
Or a dire destiny, asteroid fatality
For the lines on the fractal wave
Fits the course of history
They're created to work as one 'til the end
When the winter solstice comes
Actualizing the prophecy
The demise in 2012 realized
